WEAC recommends Diana Lawrence in AD 56

The Wisconsin Education Association Council recommends Diana Lawrence in Wisconsin Assembly District 56.

In issuing the recommendation, WEAC President Ron “Duff” Martin said, “Assembly District 56 needs a representative who listens to all constituents, is committed to advancing education equity and supports public schools across Wisconsin.”

WEAC members, teachers and education support professionals employed in Wisconsin Public Schools, believe in engaging in the political process because every aspect of public education is impacted by elected officials.

Diana Lawrence says she appreciates this endorsement because she is a strong supporter of public schools and teachers. Taking care of our educators is one way to strengthen our public education system so that it works for all of us.

Even families with children in private schools and adults without school-age children benefit from good public schools.
